

Local Legion Held Program For Scottish Poet

Good Program Arranged For
The Occasion

Last Saturday evening the Local Legion entertainment committee put on a program in honor of the popular Scottish poet, Bobby Burns.

There was a fair attendance and all enjoyed the program which was made up largely of Scottish songs, poems and stories.

Mr A. H. H. was the main attraction and opened with an address on the life experiences and popularity of the beloved poet which covered many remarks that put the audience in the interest of the evening.

During the evening the Haggis was brought in led by Mr H. who played the popular tune on the bagpipes, and was carried in style by Mr A. Patterson. It was taste that all asked for a second helping.

A vote of thanks was tendered to who took part in the program and special reference was made to Mr H. for his assistance in making the evening's program so thoroughly in keeping with the Burns anniversary.

CONFERENCE OVER TRUCK OPERATORS

Ranking as of first importance in Alberta motorway was a conference of representatives of the western provinces, held at Regina recently, with a view of securing uniformity in regulations concerning trucks were discussed, along with related subjects.

As a result of this conference it is expected that recommendations as to certain changes with a view to bringing about uniformity will be recommended to the respective provincial governments.

All provinces in Canada were well represented at the Legion convention which was held in Port William this week.

Governments Blamed For No Rehabilitation

It Looks As Though Both Are
Passing The Buck

In a lengthy editorial in the Edinburgh Herald which covers many questions one part of it is the matter of rehabilitation in the drought areas of the west, which says: "Here we have another example of 'back-passing' because the constitution is out of date."

Reference is made, as to which is the authority of provincial Dominion governments to solve the problems but adds: "Here we have divided authority preventing from being done what the administrative officers of both Dominion and provincial governments agree should be done and without delay. We have another example of back-passing. That is exactly what is occurring between Ottawa and Edmonton on this matter of the F.R.A. Meantime the people suffer and lose faith in government's loss faith in the Canadian democracy."

Mr G. W. Edmunds, a barrister of Calgary, has been appointed a magistrate to act in various points throughout the province when cases are to be heard by such a court in points where there is no magistrate.

A demand for producer-controlled compulsory marketing legislation in Canada was placed before the Agricultural Ministers' Conference Saturday by the executive of the Canadian Chamber of Agriculture.

According to report, Alberta had 10,357 jobless men and women seeking work through the Alberta Employment Service during the week ending last Saturday as against 10,360 for the same week in January 1937.

Report from England stated that United States would protect Canada from invasion by Japan on the west coast is necessary. It is also stated that the United States was preparing to co-operate in any movement to insure world peace.

School Literary News

The Literary Society held an interesting meeting in the club-room on Friday, January 21. The English class took a lively part in the program. First John Walton and Mrs. Osgood displayed a father-son daughter team, introducing it cordially and respectfully. This was followed by a conversation between Hilda Humphrey (as a mother) and Lynn Ellis (as her son). Proper introducing instructions were given by the following: Esther Leeson, Mary Lidick, Gena Laillard, Marjorie Fairhurst, Sylvia Kaldstad, Agnes Rindahl and Dora Buchholz. An interesting telephone conversation was held between May Martha and Ellen Hope. This was followed by the reading of the school paper by Dora Buchholz. Another interesting conversation over the telephone was given by Norma Osgood and Agnes Rindahl. A beautiful play, "The Old Toss," was followed by a vocal solo "Who is Silvia?" rendered by Gordon "Bobby."

The meeting on Friday Jan. 23 of the Redcliff Literary Society took the form of sides on the "Old Testament and a child's story 'Puss in Boots.'"

To Hold Services in Local Baptist Building

Mr. A. E. Peterson, of Medicine Hat will hold a full Gospel Campaign in the old Baptist church building at 1010 10th St. on Sunday afternoon at 3 o'clock. Week night services will be held at 7:45 on every week night for two weeks. All are welcome.

Special music every service. Alberta Legislature, regular session for this year, will be opened on Feb. 10th. Notice of ten private bills have been received.

At a meeting of stockmen in Raymond this week an effort was made to stamp out cattle and sheep stealing that is prevalent in the ranching country. It is claimed that these days of fast trucks cattle rustling is growing.

The Ratepayers Annual Meeting Held Last Friday

Council and School Board Give
The Years Report

Ratepayers meeting was held in the town council chamber last Friday evening and despite the cold weather there was a fair attendance.

Mr A. J. Learmonth was chosen as chairman and called on Mayor Sangster chairman of the various council committees and Mr H. Johnson chairman of the school board, to give reports.

Mayor Sangster reported that the past year was an eventful one in all departments and that in policy was not to interfere with the responsibility of the various departments and that they should do their duty. He stated members of the council worked harmoniously together and took a keen interest in the welfare of the town and its citizens. The mayor also thanked the councillors for the towns interest they had taken and the Mayor for reporting meetings.

As chairman of the finance committee councillor Buchholz gave an account of revenue and expenditures. Councillor Rindahl, chairman of the Water Works committee; Councillor Shaw, chairman of relief committee; Councillor Evans chairman of Light and Power committee; Councillor Hope, chairman of Public Works committee; Councillor Willis chairman of the Finance and Police committee, gave reports of estimates and expenditures for the year.

The committee which had slightly exceeded expenditure, over estimates gave reasons which were quite approved by the meeting as each case was worked to make improvements and repairs which were not contemplated.

Mr H. Johnson, chairman of the school board, gave a complete report of expenses during the past year and outlined extra costs which were largely caused by an epidemic that caused a panic, and medical inspection.

He also read the report submitted by Mr. King, the school principal which referred to the changes in studies the satisfactory manner in which the staff conducted the several departments and the fire drills and physical training.

During the evening several questions were asked which were satisfactorily answered.

Mr H. Sheehy moved and seconded by Mr A. Maskell, that the meeting extend thanks and compliments to the Mayor and Council and the School Trustees. For the efficient manner in which the town business was conducted. The motion was unanimously passed.

Accidental deaths cost the U.S. 50,000 lives in 1937 of which 59,700 were in the traffic field. It is estimated the bill ran up to \$5,700,000.

The British government has decided to immediate increase of naval strength in the Mediterranean shortly after the Spanish embassy there charged an Italian submarine was responsible for torpedoing the British steamship Endymion.

U. F. A. Advocate Sink Party Difference

Want to Get Together Under
Banner of Unity

Since the recent U.F.A. convention there appears to be a feeling of delegates that they are opposed to the Royal Credit government and are anxious to have it defeated. They are of the opinion that opposing forces could sink other party differences and get together under the banner of unity and establish a new policy.

There is no doubt that the ordinary man or woman in the province who is of the opinion that the present government cannot ever carry out its promises on the system which it advocated during the last election, and that if all the other political parties put candidates in the field in every constituency, none of them can win or defeat the present government.

Those of the left political parties who want to stick together and nominate candidates are referred to by some, as those who want to be candidates.

Recommended Varieties Of Sweet Clover

Some Kind Recommended For
Drought Areas

Sweet clover is a forage crop which several different varieties are available. These varieties all possess certain definite characteristics, and a discussion of the main types may be of interest to those who intend to plant sweet clover next spring.

Arctic is recommended as the best variety for hay production, which several different varieties are available. These varieties all possess certain definite characteristics, and a discussion of the main types may be of interest to those who intend to plant sweet clover next spring.

The Municipal Nominations Next Monday

Vacancies For Mayor Councillors
And School Trustees

Nominations for Mayor Councillors, and School Trustees will take place in the Town Council building next Monday morning between eleven o'clock a.m. and twelve o'clock noon.

The vacancies should be filled for Mayor, three councillors and three trustees and ratepayers should not overlook the required qualifications to at least fill the vacancies.

We understand that all the returning officials are willing to stand again.

Botanical Notes For The Month February

In The Month of Hope as Days
Are Getting Longer

To some people February is just another winter month; since what cannot be cured must be endured. Many will associate it with the old-age festival of Candlemas. To others it is the month of hope because, each day is getting visibly longer and brings with it those superb sunrises and sunsets—one of the signs that spring is on its way. The groundhog wakes, stretches, probably yawns and has a good stretch; then peeps at the world. Another harbinger of spring. In the middle of this month comes the festival of Saint Valentine, which has, for age, been associated with the mating of young things.

Validity of the Alberta government's compensation of Delta and which the provincial government was made effective last August has been challenged in the supreme court of Alberta.

WORLD HAPPENINGS
BRIEFLY TOLD

Men, John Buchanan, 26, eldest son of Lord Tweedmouth, has come to Canada to join the Edmonton staff of the Hudson's Bay Company.

The Duke of Richmond's estate, six villages and 80,000 acres of land, have been purchased by the crown lands commission "purely as an investment."

A new world record depth of 9,000 feet for diamond drilling has been set near Potchefstroom, in the Southwestern Transvaal. The drill is searching for the main gold-bearing reef.

Because a debtor was seen at dog races in Manchester, the court stepped in. Owing \$225, he was ordered to pay one shilling a month. Now he's clearing off the debt at two shillings a month.

Representing 56 nations, between 2,500 and 3,000 delegates will meet in Durban in 1940 for the World's Sunday school convention, the largest ever to be staged in South Africa.

Seven young persons, all of high school age, were killed in Butler, Indiana, as the automobile in which they were riding crashed through crossing gates into the side of a speeding passenger train.

George Brooke, who fought in the American civil war and in the Great War as well, celebrated his 83rd birthday in Winnipeg, still hale and hearty. He served with the Canadians in France, despite his age of 73 years.

A. H. Scouten, 67, veteran of the Riel Rebellion and Fenian Raids, died in Winnipeg recently. He was born at Kingston, Ont., and came west when young to become one of the first original members of the old "Royal Northwest Mounted Police."

Kind Art Helped Business

Taxi Driver Was Repaid For Re-freending Small Girl

Some months ago, the driver of a taxi in Los Angeles saw a girl of about six standing on a busy street corner, frightened, bewildered, and crying. He stopped out of his cab and, through the child's sobs, learned that she was on her way home from school and "had got lost." With no thought of payment he put the girl in his taxi and, using the meagre information she could furnish, took her home. The incident gave the grateful parents an idea. They not only paid the driver generously for his trip, but made arrangements with him to take several children in the family to and from school every day. Other parents in the neighborhood have made similar arrangements with the same driver.

Game Conservation

Would Set Aside Large Areas For Indian And Eskimo Trappers

In an effort to match the Indian from lethargy and hopelessness and at the same time relieve the fur industry, the Hudson's Bay Company will concentrate on game conservation in the north.

Ralph Parsons, company fur trade commissioner, said the firm would expedite for conservation plans in 1938. "There will be a special support for government proposals to set aside large areas for exclusive hunting and trapping privileges of Indians, Eskimos and half-breeds," he said.

May Replace Whistle

Radio For Communication On Freight Trains Is Being Tested

Trainmen foresee "end-to-end" radio communication on long freight as a substitute for whistling while signals.

The Pennsylvania Railroad tried out the idea on a 30-mile run from Philadelphia to East, Pa., in a 30-car freight, and then announced it hoped eventually to install them throughout the system. The new apparatus consisted of speaking and listening instruments operated similar to a telephone—but without wires.

Proud Yankees—Nah, I sure hope to New York.
Englishman: "I'm glad to hear it. I thought it belonged to you."

FLIN FLON

"The Story of Its Finding and Position To-day"

By PRATT KUBIN

By the time I'd seen all this I'd been some hours underground, but there were still some puzzles for me to solve. I knew I was not to ask my guide:

"Suppose all electric power were cut off, how would you get out?"

He assured me that there was a ladder on each level, but that was a last resort. I knew I'd never get up, not with those boots, but I said nothing.

Then how about unexpected falls of rock in runways loosed by constant explosions in the mine proper? Well, the mine safety engineer and his crew do nothing else but examine and make anything dangerous. They also go over the mine each Sunday and their word is law. No man can work underground if any safety conditions are not safe. Then there's a Provincial safety mine superintendent, and he knows how many other officials are also taking a "look-see" for safety's sake.

My guide and I went up from the 1170 in a couple of minutes and emerged on the main floor, where I changed my mind. There was hardly a spot on my rubber suit.

Flin Flon is called a "Picture Mine" by mining men. It's splendidly clean and dry, and its word is law. At first didn't take in just who he was, but later I was told it was a young man in his early thirties to be a guide.

I met Superintendent Caulfield and at first didn't take in just who he was, but later I was told it was a young man in his early thirties to be a guide.

Well, I'd seen the underground where men are mined, and I'd seen it through the eyes of a miner. I was going to open to understand the operation so that you may see it to the open pit, said I to Chief Engineer Nelson.

It was here, on the edge of the lake, that I saw the first of the sports area that Tom Creighton made his original find. It was a hole in the ground.

Imagine this: If you can, a hole in a solid rock, 400 feet wide and 100 feet deep, and made by a man 220 feet out.

It was here, on the edge of the lake, that I saw the first of the sports area that Tom Creighton made his original find. It was a hole in the ground.

Famous Bird Sanctuary

Ocean liners still Whistles To Prevent Disturbance To Frigate Birds

Great ocean liners still their whistles when passing the remarkable sea-bird sanctuary at Percé, near the tip of Gaspé Peninsula, Quebec. Steamships may sail with in close range of this famous bird city and afford their passengers a close-up view without disturbing the feathered citizens who nest on the lofty cliffs of Bonaventure Island and on the top of Percé Rock. But vehicles are not, because a loud horn would so startle the birds that, in their haste to take flight, they would pour hundreds of their eggs or young into the sea.

The bird colonies at Percé, which have been included in a sanctuary established by the Dominion Government and the Province of Quebec, are unusual in that, while interesting and spectacular, they are readily accessible by highway, railway, and steamship. They are inhabited during the summer by many thousands of gannets, which are great white birds as large as geese, and by gulls, cormorants, albatrosses, and other sea birds.

All local records for the number of tourists visiting were broken last year when this sanctuary was seen by 22,000 visitors to Percé. Half of these, or 11,000, made the trip by the small motorboat around Bonaventure Island, three miles off shore, to see the astonishing multitude of birds nesting there on the ledges of the tall red cliffs.

Always a Friend

Dog Will Stand By His Master Under All Circumstances

If you want a real friend, a puppy-dog, was the advice given in Detroit audience by Mr. Dale Carnegie, author and journalist. Man, he said, can learn more about friendship from a puppy than he can from psychologists.

The essence of friendship is sincerity. Anybody who owns a dog never questions its sincerity, even when it "barks" at a stranger.

Flin Flon, always a friend, through good weather and bad. Many a man has fallen on evil days, and in the Flin Flon, his friends, but his dog was on hand when he needed true friendship most.

Winifred Daily McGovern.

STITCH UP SLIMMING COAT—FRIGATE IN A COTTON

By Anne Adams

A friend of the writer, a man of means, had a very fine education, had a nose on his lower lip. He was an inveterate smoker. I said to him, "What are you doing for that nose on your lip?" "Oh, he replied, "I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

ARTICLE No. 28

Cancer Of Lip And Mouth

There is an old French proverb which says: "Death enters by the mouth." It is eminently true. The mouth is about the dirtiest cavity in the body. It harbours germs of disease without number, and while a cancer is not the result of germ action, conditions in one's mouth favour the incidence of cancer in the throat, tonsils and general unsoundness of the teeth, all contribute to the cancer in a person predisposed to that affliction. So too, do excessive use of tobacco, and syphilis. Cancer of the floor of the mouth or inside of the cheek is frequently due to bad teeth, tobacco, and syphilis. Women have less cancer of the mouth than men, but cancer of the lips is more common in women than in men. It is found in the teeth cleaner than men do and besides women until recently smoked less than men. The last 50 years of the prevailing tobacco habit of women may tell a different story.

The influence of chronic irritation in the mouth, such as that of a sore, is well illustrated by the belated showers of Eastern lands. Cancer of the mouth occurs in the mouth of sailors to the extent of about 110th of one per cent. This incidence in Ceylon, India, and in the Philippines is due to the chronic irritation produced by the habit of belated chewing among women of these countries.

There is always plenty of warning about lip and mouth cancer. The early signs are white or pruritic spots on lips, tongue or inside the mouth, raw sores which show no sign of healing, scabs, lumps inside the cheek, or on the tongue.

The noticeable fact is that most signs are frequently ignored until the cancer which follows is beyond relief.

A friend of the writer, a man of means, had a very fine education, had a nose on his lower lip. He was an inveterate smoker. I said to him, "What are you doing for that nose on your lip?" "Oh, he replied, "I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

"I got a nose from the drug store, I'll be right back."

Know How To Spend

Merchants Of London Regret De-parture Of Mohammedan Dealer

Merchants of London are mourning the departure of the great dealer who visited the city in years. He is the Londoner Nawab of Bahawalpur, ruler of 1,000,000 Punjab Muslims. Twenty men worked three hours to load the Nawab's boxes of baggage. There were 100 cases, 10 crates, 17 packages, five bags, a cask and two boxes. The Nawab also took home a limousine with gold fittings and a safe for his private use. It is estimated that he spent about \$150,000 during his visit to England. He is said to have spent hundreds of dollars on clothes for himself and for special uniforms for his servants. Other purchases included gold plated radio sets, grand pianos, a collapsible boat, and pieces of modern furniture.

Two Financiers

Two financiers in the introduction of a new type of identification purposes were Sir Francis Dallas of England and Sir William Sturges of India. Here was the first of the financial members of the Huggi court, which Dallas wanted to do the same for Chinese immigrants.

The dock at Southampton, England, is the largest in the world and is capable of berthing eight of the world's largest vessels at the same time.

Speaks Four Languages

And Polish Girl Plans To Master A Few More

Irish Propheta, a 16-year-old freshman at Hunter College in New York, who went to the United States three years ago from Poland, will be asked to master several other languages during her college career. Despite the brief time that she has been in America, Miss Propheta was graduated in Berlin, the time is not far distant when people will walk on potato peel and also use it to keep up with other bottles. Mr. Meyer is a "multilingual" expert. His latest discovery is a special chemical treatment of potato by which their peel is turned into a material which is not capable of the natural qualities of cork.

Cork From Potato Peel

According to Dr. Hans Meyer, a chemist at the University of Berlin, the time is not far distant when people will walk on potato peel and also use it to keep up with other bottles. Mr. Meyer is a "multilingual" expert. His latest discovery is a special chemical treatment of potato by which their peel is turned into a material which is not capable of the natural qualities of cork.

Giving in doesn't necessarily mean "giving up."

Playing Chess By Mail

Depression Years Have Caused Interest To Be Taken In This

Depression years caused a boom in chess playing. Thousands in Canada, United States and other countries have taken up the game in the last few years. Chess has been a popular game for many years, but it was not until the depression years that it became a popular game for many people.

Chess has been a popular game for many years, but it was not until the depression years that it became a popular game for many people.
